THE HSC HEALTH CARE SYSTEM

The HSC Foundation

The HSC Foundation has developed a dynamic network of partners across the country. These partnerships were developed through the Foundation's National Youth Transitions Initiative. The Initiative assists youth and young adults with disabilities in creating and living a self-directed path to adulthood and employment. Each of these partnerships bring a unique expertise and strength that – together – maximizes the potential reward for the children, youth, families and communities we all serve.

We are pleased to highlight our organizational partnerships in this booklet. Contact information is provided for each to encourage further collaboration.

“Alone we can do so little;
together we can do so much.”
